

To complete the Elabo furnishing systems, we also provide workbenches and organisable steel plate base cabinets. Steel cabinets, shelves and shelf trolleys are available for storage of materials and devices.

**Workbench tops**

Workbenches are available with various workbench tops depending on the mechanical requirements.

**Base cabinets**

The steel plate base cabinets are available in three variants:

For suspended or floor installation under the workbench or as a separate individual element cabinet for measuring equipment, tools or material.

The unit is manufactured of 1.25 mm thick quality steel sheeting, all surfaces are powder coated.

The drawers run on ball-bearing pull-out racks, can be pulled out to 90%. Carrying weight 100 kg. Surrounding holes in the bottom and on the side walls enable the use of sectioning elements.

Front side of drawer with handle rail, large labelling area and colour-coded identification. Central locking via security lock, different locks in standard designs.

**Base frame**

Sturdy steel frame made of 3 transverse-running 40x40 mm square steel pipes and four longitudinal-running 40x25 mm rectangular steel pipes, powder coated in light grey (RAL 7035). The removable legs are equipped with height adjusters for compensate for floor unevenness.

Drawer dimensions for workbench base cabinets

Front height	Effective height
75 mm	60 mm
100 mm	85 mm
150 mm	135 mm
200 mm	185 mm

Continuous dimensions:  
 Effective depth 600 mm  
 Effective width 500 mm

For unit dimensions, see selection table.

Colour: RAL 7035

The mobile rollboys are manufactured with the same construction as the steel sheeting base cabinets. In addition, a drawer stop has been integrated: only one drawer may be pulled out at a time. Cover with chrome-plated bumpers constructed as edging strips, upper side of cover covered with grooved rubber. Complete with 2 fixed castors and 2 swivel castors with 100 mm diameter, 2 of which with fixing brake. Loading capacity: 400 kg.

The Elabo steel shelves can be extended as individual elements or in connection with the mounted parts into complete storage systems. The side support frames with insertable horizontal crossbars are made of a sturdy steel U profile. The shelves and drawers can be inserted into the 25 mm grid. In the same way, the shelves can be panelled with the side or rear wall elements. We can also provide a plinth for the front. All steel elements are powder coated in light grey (RAL 7035).

Steel cabinets supplement the shelf systems in the storage logistics. Material, measuring equipment and tools can thus be stored dust-free in a locked environment.

The mobile shelf trolleys are ideal for swift transport of materials to Incoming goods, Warehouses or Production.
